DANGEROUS DRUGS:

How to Control Effectually All Such Horrible Habits.

Rochester, N. V. Post-Express.

A gentieman who has spent the summer abroad, said to our reporter, that the thing that impressed him most of all was the number of holidays one en-counters abroad and the little anxiety the peon'e display in the conduct of busi-ness affairs. "Men boast here," he said, "that they work for years without a day off; in Europe that would be considered

Mr. H. H. Warner, who was present at the time, said, "This is the first sum-mer in years that I have not spent on the water. Been too busy."
"Then, I suppose you have been ad-

vertising extensively?"
"Not at all. We have always hereto-

"Not at all. We have always heretofore closed our laboratory durin? July,
August and September, but this summer we have kept it running day and
night to supply the domand, which has
been three times greater than ever before in our history at this season."

"How do you account for this?" "The increase has come from the unirersal recognition of the excellence of our preparations. We have been nearly ten years before the public and the sales are constantly increasing while our newspaper

advertising is consoully diminishing. Why, high scientific and medical authorities, now publicly concede that our Warner's safe cure is the only scientific specific for kidney and liver diseases and for all the many diseases caused by

"Have you evidence of this?"

"Abundance! Only a few weeks ago
Dr. J. L. Stephens, of Lebanon, Ohio, a
specialist for the cure of narcotic, etc.,
habits told me that a number of eminent scientific medical men had been experimenting for years, testing and an-alyzing all known remedies for the kid-neys and liver, for as you may be aware, the excessive use of all narcotics and stimulants destroys those organs, and until they can be restored to health the habits cannot be broken up! Among the investigators were such men as J. M. Hall, M. D., President of the State Board of Health of Iows, and Alexander Neil, M. D., Professor of Surgery in the college of Physicians and Surgeons and posident of the Academy of Medicine at Columbus, who, a terexhaustive inquiry, reported that there was no remedy known to schools or scientific inquiry equal to Warner's safe cure!"

"Are many persons addicted to the use of deadly drugs?"

"There are forty millions of people in the world who use opium alone, and there are many bundreds of thousands in this country who are victims of mor-phine, epium, quinine and cocaine. They think they have no such habit about them-so many people are unconscious victims of these habits. They have pains and symptoms of what they call malaria and oth r diseases, when in reality it is the demand in the system for these terrible drugs, a demand that is caus: Hargely by physicians', rescriptions which contain so many dangerous drugs, and strong spirits, and one that most be answered or scienced in the kid-neys and live by what Dr. Stephens says is the only kidney and liver specific. He also says that mode are opinm and other drug caters, if they sus ain the kidney and liver vigor with that great remedy, can keep up these habits in moderation."

"Well does not this di covery give you a new revelation of the power of safe

"No, sir; for years I have tried to convince the public that ready all the dis-gases of the human system originate in some ai-order of the kidners or liver, and hence I have log-cally declared that if our specific were used, over ninety per cent, of these ailments would disappear. The liver and kilineys seem to absorb these poisons from the blood and become deprayed and diseased."

"When these eminent authorities thus publicly a lmit that the e is no remedy like ours to enable the kidneys and liver to throw off the hightful effects of all deadly drugs and excessive use of stim-ulants it is an admission of its power as great as any one could desire; for if through its influence alone the opium, morphine, quin ne, co aine and liquor habits can be overcome, what higher testimonial of its specific power could be

You really believe then, Mr. Warner, that the majority of diseases come from kidney an taiver complaints?"

"I do! When y u see a person moping and groveling about, half dead and half alive, year after year, you may surely put him down as having some kidney and

liver trouble."
"The other day I was talking with Dr. Fowler, the eminent occulist of this city, who said that oalf the patients who came to him for eye treatment were affected by advanced widney disease. Now many people wonder why in said he life their eye sight becomes so mor. A thorough course of treatment with Wirner's safe cure is what they need more than a pair of eye glasses. The salvey poison in the blood always attacks the weatest part of the body; with some it affects the eyes; with others the head; with others the stomach or the lungs, or rheumatic disorders follows and neuralgia tears them in pieces, or they lose the powers of taste, smell or become impotent in other functions of the body. What man would not give his all to have the vigor of youth at command?"

The intelligent physician knows that these complaints are but symptoms; they are not the disorder, and they are symptoms not of disease of the head, the eye or stomach, or of virility, necessarily, but of the kidney poiron in the blood and they may prevail and no pain occur in the bidneys.

in the kidneys."

It is not strange that the enthusiasm which Mr. Warner displays in his appreciation of his own remedy, which re-stored him to health when the doctors said he could not live six months, should become infectious and that the entire world should pay tribute to its power. For as Mr. Warner says, the sales are constantly increasing, while the news paper advertising is constantly diminish mg. This speaks volumes in praise of the extraordinary merits of his prepara-
